

Md. Saiful Islam

Full Stack Developer

Rajbari, Bangladesh | +8801742004508 | isaiful.islam508@gmail.com | [Linkedin](#) | [Github](#) | [Portfolio](#)

CAREER OBJECTIVE :

I am a passionate Full Stack Web Developer with 1+ years of experience, currently working in a web development company. I specialize in building responsive, user-focused applications using React.js, Next.js, Redux, Node.js, TypeScript, and also develop custom Gutenberg blocks for WordPress. I'm eager to take on new challenges and contribute to meaningful projects through clean code and collaborative teamwork.

SKILLS :

Front-end: HTML5, CSS3, Tailwind CSS, Bootstrap, Javascript, Typescript, React js, Nest js, Redux.

Backend: Node js, Typescript, Express , Mongodb, Mongoose, JWT.

Tools: VS Code, Vercel, Chrome Dev Tool, Figma, Netlify, Canva, ChatGPT, Gemini.

Soft skills: Communication, Leadership, Team-playing ability, Time Management, Adaptability, Quick Learner, Responsibility.

Experience :

Frontend Developer Full Time

Kodezen Ltd – (Jul 2024 – Present)

- Developing custom Gutenberg blocks for WordPress blog platforms.
- Collaborating with team members to deliver responsive and optimized UI features.
- Working with JavaScript, React, WordPress PHP APIs, and styling with BEM convention.

Projects :

[Nestly](#) | [Client Side](#) | [Server Side](#)

Overview : A smart rental housing solution connecting landlords, tenants, and admins with role-based dashboards and real-time features

- **User Experience:** Offers a fast, responsive design with smooth navigation across all devices.
- **Rental Management:** Landlords and tenants can manage listings, requests, and rental activities through separate dashboards.
- **Payment System:** Includes Stripe integration for secure rent payment after landlord approval.
- **Technologies:** Next.js, TypeScript, React.js, Tailwind CSS, JWT, Stripe

[Bike Nest](#) | [Client Side](#) | [Server Side](#)

Overview : Bike Nest is a bike store responsive e-commerce app for browsing and purchasing bikes, featuring category filters, cart functionality, and an admin panel for product management.

- **User Experience:** Provides a responsive, user-friendly interface for browsing and purchasing bikes across all devices.
- **Shopping Features:** Users can filter bikes by category, view detailed product pages, and manage cart and checkout flows.
- **Admin Management:** Includes a secure admin dashboard for managing products and orders with authentication.
- **Technologies:** React.js, Redux, TypeScript, Node.js, Express.js, MongoDB, Mongoose, Tailwind CSS
